

## Basics of tspan: changing visual properties and positioning.

You are not a banana.

Text: "You are not a banana."  
'tspan' changes visual attributes of "not",  
to green, bold.

But you are  
a peach!

C u t e   a n d  
f u z z y.

Text: "But you are a peach!"  
Using dx,dy, 'tspan' raises "are",  
'tspan' lowers "a peach!"

Text: "Cute and fuzzy."  
'tspan' char-by-char placement of "Cute and",  
'tspan' char-by-char "fuzzy", below it.
